The entire press maintains an attitude of great reserve while awaiting the decision of the Washington government on these most important questions.
The "Tribuna," however, thinks the present project of Signor Tittoni is the minimum which the nation is ready to accept and expresses the hope there will be a definite solution of the problem, which, it says, has kept the people so long in su pense regarding the maintenance of peace
The "Idea Nazionale" calls the Tittoni project a monstrosity which does not take into account the will of the people of Fiume, who are firmly supporting Gabriele d'Annunzio. Ontario to Vote To-day On a Dry Referendum

Election to Decide Fate of Conservative Government, in Office Since 1905

TORONTO, Ont., Oct. 19.—The electors of Ontario, doubled in number by the extension of the franchise to women, will vote to-morrow on a prohibition referendum, and at the same time will decide the fate of the Concervative government, which has been in office since January, 1905.

There are four questions on the referendum ballot, namely, the repeal of perpetuation of the Ontario temperance act, a rigid prohibition measure, instituted as a war measure, with the undertaking to submit the question of the war; a proposal for the sale of light beer under government supervision, the sale of light beer in hotels in previou ly "wet" areas and the sale of mark and spirituous liquors by government agencies.
